Special Session: 'The Matroesjka Effect'

Connecting scales of climate actions in Eurodelta

We would like to invite you to the virtual session organized in collaboration with ISOCARP for the 57th World Planning Congress. The session will take place on the 29th of October 2021, from 11:00 until 12:30 hours.

[REGISTER HERE](#)

Spatial planning aims to advocate for an inclusive future while addressing the pertinent challenges of climate change that we are currently facing. It is no longer sufficient to only have visions for the future but climate urgencies requires immediate actions and active cooperation.

Format of the session

The session is a 90 minutes roundtable discussion with

The Session

With the help of examples of best practices and lessons

presentations from two speakers followed by open discussion and debate. the session will end with a Q&A session via live audience or via chat.
